Software Developer | Java | Spring Boot | Angular | AWS

OBJECTIVE

Motivated and detail-oriented Software Developer with hands-on experience in Java, Spring Boot, Angular, MySQL, and RESTful API development. Skilled in building scalable web applications and full-stack solutions. Seeking a challenging Software Engineer/Java Developer position where I can contribute my technical expertise, problem-solving abilities, and passion for developing high-quality software solutions while continuing to grow professionally.

TECHNICAL SKILLS

Languages	Java, C, TypeScript, JavaScript
Databases	MySQL, MongoDB
Frameworks	Hibernate, Spring Boot, Angular
Deployment Tools	GitHub Actions, Docker, Kubernetes, GitLab CI/CD
Process	Jira, ITIL, GitHub, GitLab

PROFESSIONAL EXPERIENCE

Software Developer TYASuite Software Solutions Pvt. Ltd., Bangalore March 2025 - Present

- Developed and maintained full-stack web applications using Java, Spring Boot, Angular, and MySQL.
- Built RESTful APIs and integrated frontend components with backend services.
- Automated password expiry management by developing a Cron Job-based email notification system that proactively sends password reset emails to users, improving security compliance and reducing support requests.
- Implemented JWT-based authentication and role-based access control for application security.
- Designed and optimized MySQL database structures and queries.

DevOps Intern Finzly Pvt. Ltd., Chennai July 2022 - October 2022

- Assisted in setting up CI/CD pipelines using Jenkins and AWS CodePipeline.
- Deployed and monitored applications on AWS EC2 and managed storage via S3.
- Containerized microservices using Docker for consistent dev/prod environments.
- Configured IAM roles and policies to manage access control on AWS.
- Monitored system performance and logs using CloudWatch dashboards.

EDUCATION

BE in Computer Science and Engineering, PSNA College of Engineering and Technology, Dindigul April 2022
CGPA: 7.5

CERTIFICATION

- AWS Cloud Quest: Cloud Practitioner by AWS. September 2022
- Java full stack web development by J-spiders. January 2023 - March 2025
